## Specifications

- Bottom structure metal rust free Robust model.
- Weight & measurement approved
- Rugged & reliable design
- MS checkered plat top
- Advanced microprocessor Based design
- Fast weighing response time
- Internal ADC-count of 2,50,000
- A/C Power supply operating between 90VAC to 270VAC
- Battery backup for 25 hrs
- Auto power off
- Simple & easy operation with Feather touch keys
- High brightness LED display

## Optional

- RS-232C serial interface

Parallel Display
